# Preparedness and Response to COVID-19 in Myanmar

## **Definition of the term "Contact Person"**

(as of 7-4-2020) (Reference – European Center for Disease Prevention and Control)

- ⇒ A contact of a COVID-19 case is any person who had contact with a COVID-19 case within a timeframe ranging from 48 hours before the onset of symptoms of the case to 14 days after the onset of symptoms.
- ⇒ If the case had no symptoms, a contact person is defined as someone who had contact with the case within a timeframe ranging from 48 hours before the sample which led to confirmation was taken to 14 days after the sample was taken.

### Classification of contact based on level of exposure

## **High-risk exposure (Close Contact)**

#### A person:

- having had face-to-face contact with a COVID-19 case within one metre for more than 15 minutes
- having had physical contact with a COVID-19 case
- having unprotected direct contact with infectious secretions of a COVID-19 case (e.g. being coughed on)
- who was in a closed environment (e.g. household, classroom, meeting room, hospital waiting room, etc.) with a COVID-19 case for more than 15 minutes
- in an aircraft, sitting within two seats (in any direction) of the COVID-19 case, travel companions or persons providing care, and crew members serving in the section of the aircraft where the index case was seated (if severity of symptoms or movement of the case indicate more extensive exposure, passengers seated in the entire section or all passengers on the aircraft may be considered close contacts)
- ♦ A healthcare worker or other person providing care to a COVID-19 case, or laboratory workers handling specimens from a COVID-19

#### Low-risk exposure

#### A person:

- ♦ having had face-to-face contact with a COVID-19 case within one metre for less than 15 minutes
- who was in a closed environment with a COVID-19 case for less than 15 minutes
- travelling together with a COVID-19 case in any mode of transport
- ◆ A healthcare worker or other person providing care to a COVID-19 case, or laboratory workers handling specimens from a COVID-19 case, wearing the recommended PPE
